

Every visitor is requested to register the following items carefully and acknowledge them by signature or – in case of groups of visitors – by signature of their team leader.

The premises of GKS (Hafenstr. 30) may be entered exclusively via Gate 1 (Pass). Please contact the gatekeeper during the official business hours whenever you enter or leave the company ground. He will advise you with regard to parking lots and turning options for cars, coaches and trucks.

A visit to the GKS must not take place if you suffer from an infectious disease (or if there is a suspicion of it) with the risk of infecting other people. In case of doubt, please call in advance.

Groups of visitors need someone as the responsible contact who will register the visiting conditions and notify the group members of these conditions in the appropriate way. The contact person is liable for misbehavior of his/her group members.

Visitors act at their own risk. Parents are responsible for their children. GKS is not liable for self-inflicted damage or damage caused by third parties.

Please note that the following conditions need to be observed for our visitors' safety and in order to avoid accidents on our company ground:

- Instructions by staff members of GKS shall always be followed. Please pay attention to the information coming from the electronic loudspeakers and carefully read the orders on suspended boards (bids, interdictions, advice). You should not leave the marked paths for the sake of your own safety. You are also not allowed to leave the group or enter into areas that are closed in. In the boiler house area, explosion generators are used for recurring cleaning processes. If an acoustic/optical warning signal appears, hearing protection must be provided self-dependently.
- It goes without saying that visitors should abstain from any action that might impair the order and safety of the power plant. Access to relevant system components of the power plant (e.g. valves, electrical systems, etc.) and in particular to IT data and its infrastructure is prohibited.
- The provisions of road traffic regulations and of road traffic licensing regulations are valid analogously all over the premises. Vehicles may be parked only on the marked parking areas.
- Accidents caused by negligent behavior and deliberate damage to the plant will be prosecuted.
- Chaperons of groups of pupils or teenagers maintain their obligatory supervision during the conducted tours. Children younger than 10 years need a supervisor to get access.
- In some areas of the plant it is obligatory to wear a hard hat. We recommend sturdy shoes for the tour of inspection.
- Smoking is not allowed in the marked areas. Intoxicants (e.g. alcohol, drugs) must not be brought along. Food and drinks may be consumed only in especially designed rooms.
- Pets are not allowed on the premises.
- Photos may be taken only after permission by the GKS staff. We kindly ask you to refrain from any video recording.

Visitors have to look personally after their garment and other private objects. GKS is not liable for loss, damage or staining. Video observation and recording is performed. The privacy policies of GKS applies. These can be viewed on the Internet at <http://www.gks-sw.de>.

I hereby confirm that I read and understood the above visiting conditions. I will observe the instructions during my stay on the GKS premises.
